

# Meetify Diagrams

Goal: to create a service that allows user to match with other users based on music interest, using data from the Spotify API.

D0

D1

## D0 & D1 Legend

- System portion
- Data
- Server database
- User interaction
- Contextual interaction / data flow
- External server

## D2 Legend

- System portion
- Data
- Contextual interaction / data flow (identical colors imply corresponding inputs/outputs)
